

Please don't let this happen! Constant local traffic and weather is one of the BEST features of XM, and if people are PAYING for the service, they should be able to get it! Media and technology are constantly evolving in this country and, in the spirit of (1) Democracy and (2) Capitalism, we must let businesses work it out by the simple rules of supply and demand and competition, and NOT by government interference! FCC, IT'S IN YOUR HANDS!
